Mr. and Mrs. Reed drove up the canyon in the afternoon and soon after reaching Ogden valley Mr. Reed got out and went fishing along the river. Mrs. Reed drove up to the creamery and watered her horse at the trough. The little boy was in the buggy, askeep on a pillow. When Mrs. Reed started to plunge. She endeavored to hold him and at the same time to take the little fellow out of the buggy. She was thrown down and kicked by the horse over the right eye, which was badly gashed. The woman clung desperalely to the reins, and the horse dragged her for over two blocks. Her head struck some chisacle and she was sturned and had to relinquish the relins. The horse dashed can at a great pace, and the little boy, awakened by the yolting and the cries of his mother, climbed from the bottom of the bingry to the seat and clung there while the horse sped down the canyon. A young man at me Rime residence saw the animal bass and mounting a hait. Mrs. Reed was later brought to Ogden and attended to by Dr. Egan. WHY DOCTORS FAIL AND MRS. PINKHAM SUCCEEDS

Plain Reasons Are Here Given to Explain Why Lydia E. Pinkham's Vegetable Compound Cures When Doctors Are Powerless

A woman is sick; some disease peculiar to her sex is fast developing in her sys-tem. She goes to her family physician and tells him a story, but not the whole

She holds something back, loses her head, becomes agitated, forgets what she wants to say, and finally conceals what she ought to have told, and thus

completely mystifies the doctor.

Is it any wonder, therefore, that the doctors fail to cure the disease? Still we cannot blame the woman, for it is forty miles west of Louisville, this aft-ernoon. we cannot be suffering to detail some of the symptoms of her suffering, even to her

The dead: Peter Wilson, aged 15, Jeffersonville, Ind.; Chester Seaman, aged 11, Litchfield, Ky.; S. A. Kirkpatrick, Hodgeville, Ky. Among the more seriously injured are: B. F. Wheeler, Hodgeville, Ky. skull fractured; Joseph Ritter, Illinois Central car repairer, Louisville; J. D. Creasy, Bonham, Tex.; R. W. Rogers, Warrensburg, Mo.; Mrs. J. A. Lander and daughter, Warrensburg, Mo.; Mrs. J. A. Lander and daughter, Warrensburg, Mo.; aged 15, aged 15, amily physician.

It was for this reason that years ago Mrs. Pinkham, at Lynn, Mass., determined to step in and help her sex. Having had considerable experience in treating female ills with her Vegetable Compound, she encouraged the women of America to write to her for advice in regard to their complaints, and being a woman, it was easy for her ailing siswoman, it was easy for her ailing

ters to pour into her ears every detail of their suffering.

In this way she was able to do for them what the physicians were unable soing and returning. Final limit July 15.

A trip over the "MIDLAND ROUTE" will show you many of nature's wonderful scenic features by daylight. The lief, and the fact that many thousand the second sands of them have been cured by following the advice of Mrs. Pinkham during the last year is indicative of the

grand results which are produced by her unequaled experience and training. No physician in the world has had such a training, or has such an amount of information at hand to assist in the treatment of all kinds of female ills, from the simplest local irritation to the most complicated womb diseases,

This, therefore, is the reason why Mrs. Pinkham, in her laboratory at Lynn, Mass., is able to do more for the ailing women of America than the family physician. Any woman, there-fore, is responsible for her own suffering who will not take the trouble write to Mrs. Pinkham for advice. The testimonials which we are con-stantly publishing from grateful wo-

men establish beyond a doubt the power of Lydia E. Pinkham's Vegetable Compound to conquer female diseases.
